The software described in this document is furnished under a license agreement. The software may be used or copied only under the terms of the license agreement. No part of this manual may be photocopied or reproduced in any form without prior written consent from The MathWorks, Inc.

FEDERAL ACQUISITION: This provision applies to all acquisitions of the Program and Documentation by, for, or through the federal government of the United States. By accepting delivery of the Program or Documentation, the government hereby agrees that this software or documentation qualifies as commercial computer software or commercial computer software documentation as such terms are used or defined in FAR 12.212, DFARS Part 227.72, and DFARS 252.227-7014. Accordingly, the terms and conditions of this Agreement and only those rights specified in this Agreement, shall pertain to and govern the use, modification, reproduction, release, performance, display, and disclosure of the Program and Documentation by the federal government (or other entity acquiring for or through the federal government) and shall supersede any conflicting contractual terms or conditions. If this License fails to meet the government's needs or is inconsistent in any respect with federal procurement law, the government agrees to return the Program and Documentation, unused, to The MathWorks, Inc.

Bug Fixes

Compatibility Considerations

Updated MATLAB LEGO MINDSTORMS EV3 support package to align with latest component changes (November 2019, Version 19.2.1)

The MATLAB Support Package for LEGO MINDSTORMS EV3 Hardware is rereleased to resolve the compatibility issue with the latest component changes. This change does not affect any features of the support package.

R2019a

Version: 19.1.0

No New Features or Changes

R2018b

Version: 18.2.2

Bug Fixes

Password authentication for Telnet access using 1.09D firmware version (August 2019, Version 18.2.2)

The Simulink® Support Package for LEGO MINDSTORMS EV3 Hardware is not compatible with the official EV3 firmware version 1.09 for LEGO MINDSTORMS Education EV3 or LEGO MINDSTORMS Home EV3 editions. This is because the Telnet services are disabled in these editions due to security updates in 1.09E and 1.09H firmware versions.

However, the support package is compatible with LEGO MINDSTORMS Developer edition running EV3 firmware version 1.09 (1.09D), which allows Telnet access over a password layer.
